For Admission Cell : +91 7456002348 /49, 7456002341

Nursery to Class X

Delhi Public International School carries huge expectations from the society to mould every kid who walks into our campus and be able to adapt to future trends, be it education or personality development. The foundation stage and curriculum are designed keeping the needs & demands with the times. We teach children how to think and connect between their learning & experience. We aim to encourage learning by making the curriculum as interactive as possible, where children can learn practically and develop their independence as learners. As a management policy we bring professionals into the school and take the children out to places to expand their experience and make learning more real.

At Delhi Public International School we aim to encourage and support each child to achieve their best and enjoy learning. It is important that we all understand and keep to the rules of our school in order to achieve a safe, happy and ordered learning environment.
